**Solar Eclipse**

On **Monday April 8, 2024** there will be a solar eclipse when the Moon moves between the Sun and Earth. In Toronto, it is expected to be near - total solar eclipse between 2:04 p.m. and 4:31 p.m., with the peak happening at 3:19 p.m. That's when most of the Sun's light will be covered by the Moon

 Special thanks to Graziella Sadler for providing the daycare and the whole school with certified eclipse glasses.
