MARCH NEWSLETTER

Riddle Of The Month

A farmer went to a market and bought a wolf, a goat, and a cabbage. On his way home, the farmer came to the bank of a river and rented a boat. But crossing the river by boat, the farmer could carry only himself and a single one of his purchases: the wolf, the goat, or the cabbage. If left unattended together, the wolf would eat the goat, or the goat would eat the cabbage. The farmer's challenge was to carry himself and his purchases to the far bank of the river, leaving each purchase intact. How did he do it?

February's Riddle answer - The farmer would need to make 7 trips

L.S from room 412 Riddle of the Month: I'm always on the dinner table, but you don't get to eat me. What am I?
